Get Bell™ Satellite TV Service While Traveling in Canada

Take your Bell™ programming along on your next outdoor excursion! Use with one of your existing Bell receivers or add another receiver to your account for a nominal fee; it's just like adding another room! The KING Quest gives you the flexibility to take your Bell TV channels along with you while traveling in much of Canada without the need for a separate account. The KING Quest can be reprogrammed for use with a DISH® pay-as-you-go, month-to-month subscription when traveling in the United States with the included universal controller. Made in the USA.

- Get satellite TV service in Canada
- Easily reconfigure for use with DISH; allowing Canadians traveling to the U.S. to subscribe to DISH Pay-As-You-Go monthly service w/no long-term contract and no U.S. address
- Automatic satellite acquisition
- Portable or roof-mountable - no additional brackets required
- Powered over coax - no separate power cable to antenna
- Dual coax output for optimum roof-mount installation
- Supports multiple TV viewing*
- Lightweight & compact (8 lbs)
